

Characteristics of a Good Mesonet Site

- ✓ On flat or nearly flat, undisturbed ground
- ✓ Grass/low vegetation cover
- ✓ Far from buildings, trees, and other tall obstructions (at least 10x the height of the obstructions)
- ✓ Away from asphalt, concrete, gravel, and other artificial surfaces
- ✓ Easy access to AC power
- ✓ Cell phone access
- ✓ Low probability of significant land use change
- ✓ Minimal threat of disturbance or vandalism
- ✓ Long-term stability of property ownership
